

XCM 50

COMPACT USB CONDENSER MICROPHONE
FOR STREAMERS AND GAMERS

The XCM-50 is a professional condenser USB microphone optimised for streaming and gaming. It delivers highly detailed audio, with a full frequency response and tight cardioid polar pattern tuned for speech applications. It has a zero-latency headphone output with level control and mute functionality, a 360-degree swing mount for easy positioning, and comes with a tripod desktop mount. The XCM-50 also comes with a free download of UNIFY virtual mixing software, which unlocks advanced audio processing, powered by internal DSP. Together, they offer a complete audio solution for streaming and gaming.

- Professional condenser USB Microphone
- Complete audio solution for streaming and gaming with included UNIFY software
