

AI-1 Quickstart Guide

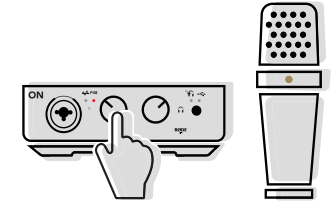

1 Connect AI-1 to computer via USB

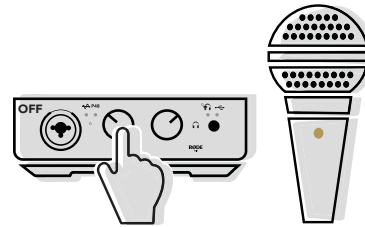

2 Connect microphone or instrument using an XLR or 1/4-inch cable (not included)

3 A Enable phantom power (P48) for condenser microphones
Press left knob and P48 light will illuminate red

3 B Disable P48 for dynamic microphones
Press left knob again and P48 light will turn off

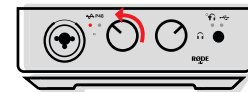

4 Set input level with left knob while checking signal light

A Green is good

B Turn down when Red

5 Connect headphones (not included) to 1/4-inch output, adjust volume with right knob
