

# VIDEOMICPRO+

## ON-CAMERA SHOTGUN MICROPHONE

The VideoMic Pro+ is a premium on-camera microphone for capturing broadcast-grade audio in a wide range of filmmaking scenarios. With an expansive feature set and superior sound quality, it is the go-to microphone for countless content creators, offering the ultimate in performance and versatility.

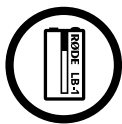

- Premium on-camera condenser microphone
- Supercardioid polar pattern and extended frequency response for capturing warm, directional audio
- High-pass filter, high-frequency boost and three-stage gain control
- Automatic power-on function, safety channel
- Flexible power options via included rechargeable battery, AA batteries or USB
- Integrated Rycote® Lyre® shock mounting for superior isolation from handling noise
- Optimised windshield for exceptional wind noise reduction

10 YEAR WARRANTY

INTEGRATED RYCOTE® LYRE® SHOCK MOUNT

INCLUDES LB-1 LITHIUM-ION BATTERY

OPTIMISED WINDSHIELD SHAPE

### ACOUSTIC & ELECTRICAL SPECIFICATIONS

Acoustic Principle:	Line Gradient
Active Electronics:	JFET impedance converter
Polar Pattern:	Supercardioid
Address Type:	End
Power Requirements:	20Hz - 20kHz (selected HPF @75Hz/150Hz)
Output Impedance:	200Ω
Maximum SPL:	133dB SPL
Maximum Output Level:	7.7dBu (@ 1kHz, 1% THD into 1KΩ load)
Sensitivity:	-34dB re 1V/Pa (20 mV @ 94dB SPL) ± 2dB @1kHz
Equivalent Noise Level (A-Weighted):	14dBA
Power Requirements:	RØDE LB-1 rechargeable lithium-ion battery, 2x AA batteries or micro USB
Output Connection:	3.5mm TRS

## MECHANICAL SPECIFICATIONS

Weight (grams):	122
Dimensions (millimetres):	Height: 111
	Length: 170
	Width: 66
Included Accessories:	1 x VideoMic PRO+
	1 x LB-1
	1 x 3.5mm TRS Cable
	1 x Micro USB Cable

## WHAT'S IN THE BOX

VideoMic PRO+

LB-1 Lithium-ion rechargeable battery

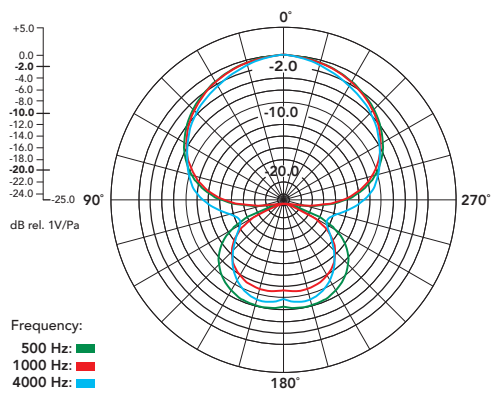

Micro USB Cable

3.5mm TRS Cable

## POLAR PATTERN
